01. ROHLING ZUM FERTIGEN PRODUKT

Wir beziehen unseren hochwertigen, kohlenstoffarmen Stahl aus verschiedenen Ländern. Im nächsten Schritt werden aus dem Edelstahl Rohlinge für Nagel-, Fell- und Eckzangen ausgestanzt und weiterverarbeitet.

02. HANDARBEIT IN PERFEKTER AUSFÜHRUNG

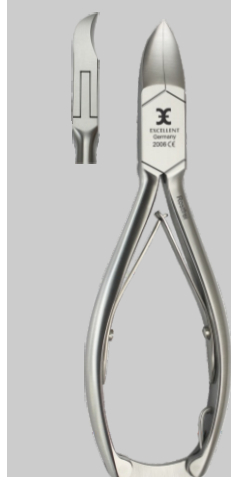

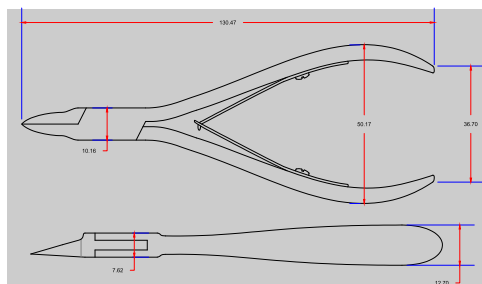

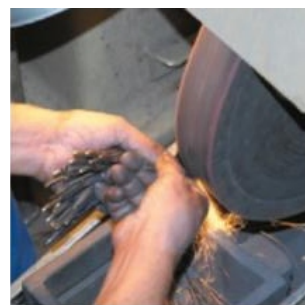

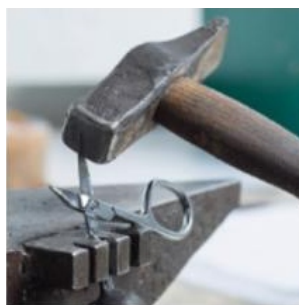

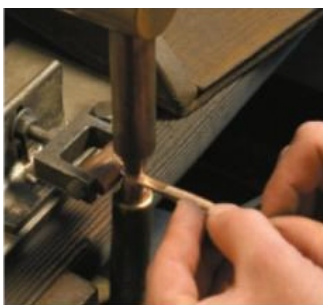

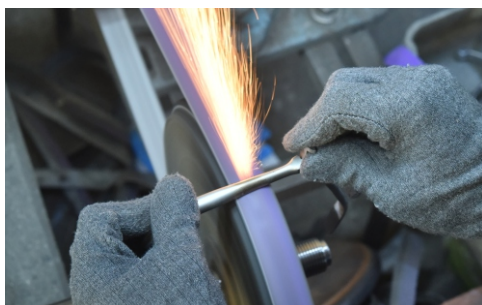

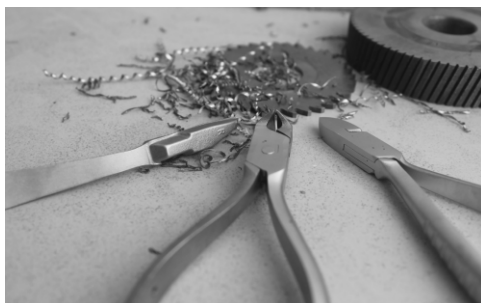

Bis heute werden unsere Zangen von Mitarbeitern mit jahrelanger Erfahrung in hochwertiger Handwerkskunst zum perfekten Schnitt verarbeitet.

03. QUALITÄTSKONTROLLE

Jeder unsere fertigen Zangen aus der Produktion wird von Spezialisten auf Materialermüdungsfehlern oder sonstigen Schäden kontrolliert. Dabei muss jede Zange in sogenannten „Stresstest“ auf ihre Schneidfähigkeit getestet und in Etuis einzeln verpackt.

04. VERARBEITUNG VON ROSTFREIEN EDELSTAHL

Für eine lange Lebensdauer unserer Instrumente, verarbeiten wir nur hochwertigen, nickelfreien Edelstahl. Rostfreier Edelstahl schützt vor Korrosion und steht für hohe Beständigkeit. Die Schneidfähigkeit ihrer Instrumente bleibt somit für eine lange Zeit erhalten.

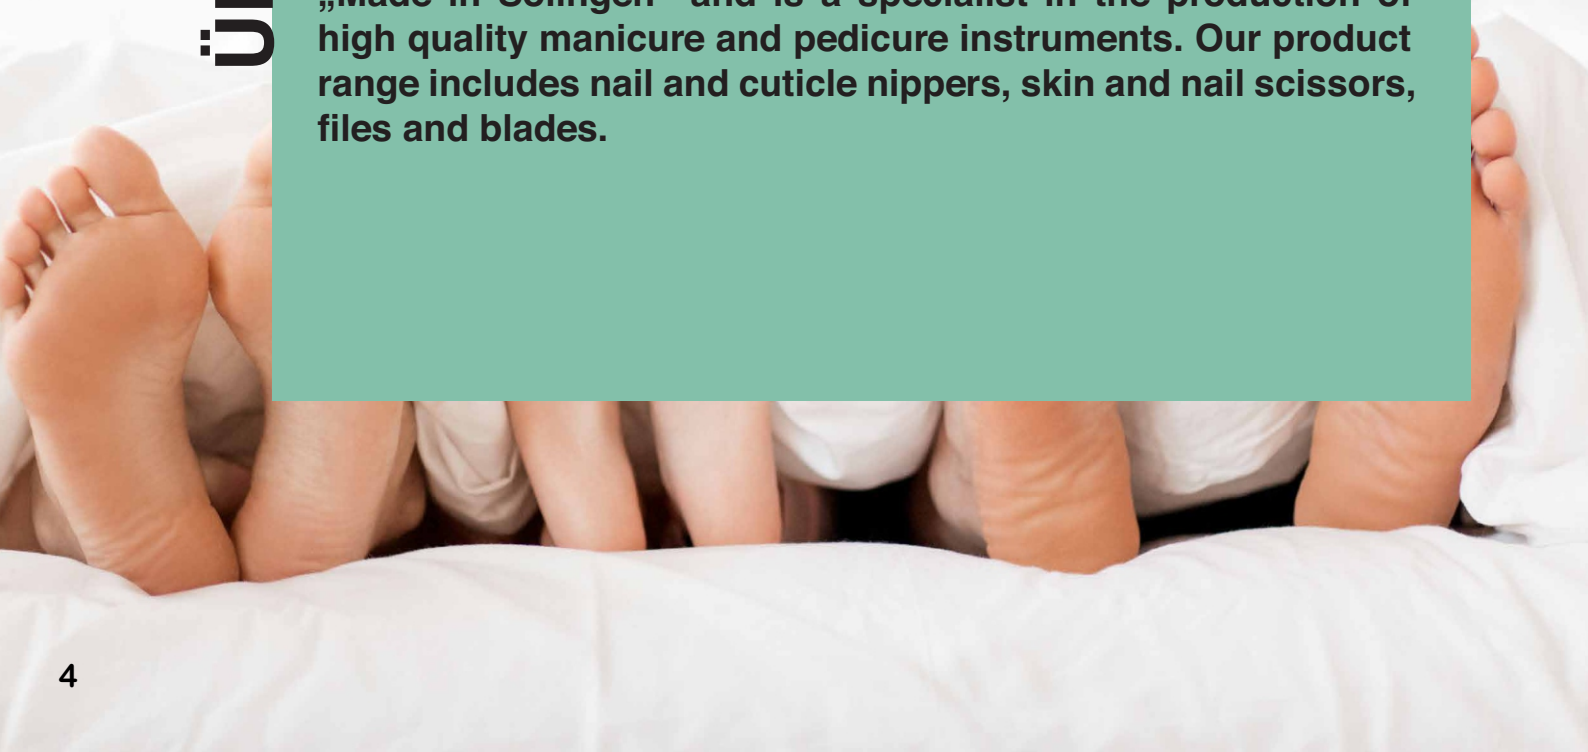

ÜBER UNS

Excellent mit Sitz in der Klingenstadt Solingen steht für Qualität „Made in Solingen“ und ist ein Spezialist in der Herstellung von hochwertigen Maniküre- und Pediküre Instrumenten. Zu unseren Produktsortiment gehören Nagel- und Hautzangen, Haut- und Nagelscheren sowie Feilen und Klingen.

Excellent, located in the city Solingen, stands for quality „Made in Solingen“ and is a specialist in the production of high quality manicure and pedicure instruments. Our product range includes nail and cuticle nippers, skin and nail scissors, files and blades.

Zangen | Nail clipper | Pince à ongles | Cortaúñas

For manicure and pedicure we offer in our assortment nail nippers, corner nippers, cuticle nippers as well as cuticle clippers. Different sizes and cutting head shapes of the nippers indicate the different application possibilities in the manicure or pedicure.

Nail nippers, corner nippers and cuticle nippers are available in various designs, each with different lengths and cutting edges, among other things, you will find nail nippers with different springs such as the buffer spring, double spring or the folding spring. Nail nippers and nail clippers are particularly well suited to shorten the nails and to shape them, it is recommended to cut the nails after showering or bathing, as the nails are then soaked and can be cut particularly easily.

Besides pliers for manicure and pedicure, we also offer orthonyxie pliers, such as tweed pliers or sidecutters. These pliers have specially shaped cutting edges, which are designed for special use.

Nail clippers are particularly suitable for cutting corner nails or ingrown nails due to the straight cutting edge. Due to the double cross spring, even harder nails can be cut with little effort. All our nail nippers have a screwed double spring and a brushed surface. Our nail nippers are made of hygienic, stainless steel that can be sterilized. Excellent offers nail nippers in various designs and greetings, both for use in manicure as well as pedicure. The cutting surfaces of a nail nipper are sharp to achieve an even
